

# Pharmaceutical Powerhouse MERCK KILLS 60,000 people and walks away with a basic Slap On The Wrist and \$6.5 Billion in their Pockets!

It was recently announced by MSNBC that Pharmaceutical Powerhouse “MERCK” was fined \$1 Billion Dollars for the deaths of 60,000 people that were caused by their drug VIOXX. (VIOXX was used to treat “pain”)

Yaaaaayyyy!!! They finally nailed those jerks over at Merck to the wall, right?!!! ...well...not really.

Oh sure, Merck was fined \$1 Billion Dollars and I know that seems like a lot of money, but when you look at the profits Merck made from VIOXX...it’s a drop in the bucket.

Merck knew that their drug was causing heart attacks and killing people at an alarming rate, but went ahead and spent \$206 Million Dollars Advertising the drug anyway. Merck held data for three years that proved Vioxx caused an alarming increase in the risk of heart attacks and strokes. And yet Merck chose not to release that data. In fact, it took three more years of patients dying from heart attacks before Vioxx was pulled off the market, and even then, Merck insisted the

drug was not dangerous. By the time the drug was pulled from the drug cartel’s shelves – the street level dealers/pushers (**Yes, I’m talking about Medical Doctors**) racked up \$12.5 Billion in sales!

In total, here’s the breakdown...

- **\$12.5 Billion in sales**
- **\$ 6.0 Billion in fees, fines, litigation**
- **\$ 6.5 Billion in PROFITS**
- **60,000 deaths**

Just to put that in perspective, here's some numbers for you.

**58,000** is the official number of Americans killed in Vietnam. We built the Vietnam Wall War Memorial in order to honor and remember those lives lost.

**3,000** lives were lost on on September 11, 2001 and every year we have a national day of prayer and we take a moment of silence to remember the victims from that tragedy.

**51,112** men were either wounded or killed over a 3 day period in the battle of Gettysburg. This is considered the bloodiest battle in American History and today Gettysburg has been turned into a National Park in order to preserve the history of what took place there.

Yet, very few seem to care if they are even aware of the **60,000** people who were killed by Vioxx, according to Merck memos – AND – **that's just ONE DRUG!**

**\$1 Billion, 60,000 deaths, no arrests made** (aside from the cardiac arrests caused by the use of the drug)

What kind of world do we live in when someone can kill over 60,000 people and not only walk away scot-free, but also walk away with **6.5 Billion Dollars** in their pockets?

Our **ONLY HOPE** in stopping these atrocities on mankind is to educate our community and the world about the natural healing benefits of Chiropractic Care. Please, for the sake the world, tell people about our office. Tell people about Chiropractic. It just may **SAVE THEIR LIFE!**
